

Shire Barcode Pack

Professional quality barcode labels in minutes

Adding professional barcodes to your FrontLine and Safety 1st Assets and Stock Codes is easy. Just load your laser printer with labels, import Shire's barcode report generator, select your items and hit print. Simple!

Your pack includes

- ✓ FrontLine & Safety 1st asset and stock label generator reports
- ✓ 480 Avery® Heavy Duty Laser Labels, White
- ✓ Easy-to-follow instructions

Stock label

Asset label

Labelling simplicity

The Shire Barcode pack provides a simple means of labelling your Assets, Stock Codes and Bin Locations.

No specialist bar code printer is required – just use your regular office laser. You can produce your own barcode labels quickly and easily, right when you need them and at a fraction of the cost of buying them in.

Increased productivity

With barcode scanning, labelled items are identified and registered as quick as a flash and with 100% accuracy. No more entry errors.

Your productivity will soar!

Strong and durable

Avery® labels are strong and durable – perfect for use outdoors as well as indoors. Advantages:

- Waterproof
- Resistant to oil, detergent, grease
- Tear-proof
- UV resistant
- Will stick to card, painted and unpainted metal, glass and plastics
- Unaffected by temperature changes from -20°C to 80°C – you can use them in a freezer

Standard format

Your labels are configured in Code 128. This is a standard, compact barcode format for alphanumeric coded information – such as that used by FrontLine and Safety 1st.

To instantly read and register the coded information on your barcode labels, you can use most commonly available barcode scanners.

Low cost, handheld devices are readily available. You can also get Ex and IP65 - even IP67 - compliant devices, as necessary. Shire will provide you with all the technical advice you need to get up and running.

Off the shelf

To get you started, our pack contains 480 labels. We provide 20 A4 sheets of white Avery® heavy duty laser labels - 24 labels per sheet. Label dimensions are 64.6mm X 33.8mm.

When you need to top up on labels, more are readily available from your local stationery supplier. The Avery Product Code is L4773.

Customised solutions

You may require barcode labels of another design or size to the ones in the Shire Barcode Pack. Perhaps you want to insert your own logo or display further information on your labels.

If you do, just contact the Shire Support Team on 023 8023 0656, or email support@shiresystems.co.uk. We can create customised templates to your requirements in any size up to A4.
